

# WHAT IS A CONTOUR LINE DRAWING?

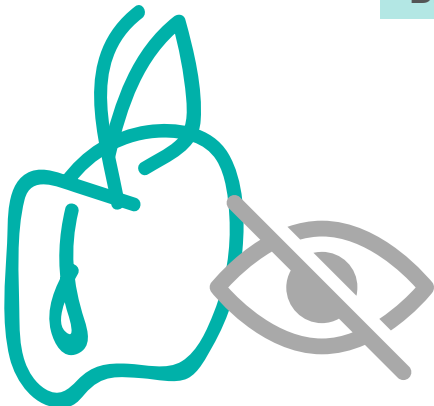

A contour line is the outside edge of a shape. The outside edge is the most important line of an object.

## Continuous line drawing

A contour drawing is when the artist does not pick up the drawing tool from the paper until the drawing is completed.

## Blind contour line drawing

A contour drawing is when the artist looks at the subject the entire length of the drawing. The artist does not pick up the drawing tool from the paper until the drawing is completed.
