

# FOLDING TECHNIQUES

## BASIC FOLDING TECHNIQUES

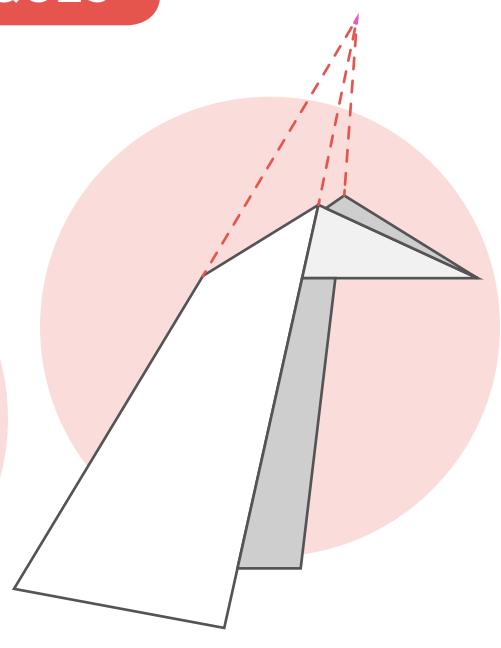

### Guideline Folds

Initial folds to help compartmentalize the paper

### The Basic Fold

Match up corners and press along the crease

### The Inverse Fold

Turn original fold inside out, or push through

## ADVANCED FOLDING TECHNIQUES

### Score and Fold

Pull a knife gently across the surface of a desired fold to ease the movement of the fold and create a cleaner line (this is a great technique for poster board).
